John Solomon Bonthala

Generative AI Artist & Colorist

+91 83281 24552 | bjohnsolomon274@gmail.com | Hindupur, Andhra Pradesh | www.johnsolomon.online

PROFILE

Generative AI Artist at TheCreativGrid, turning briefs into AI-generated ad films, brand visuals and short-form stories. I take work from **concept and prompt direction** through generation, edit, sound design and **colour grading in DaVinci Resolve**, working in Higgsfield and Magnific AI with models like Seedance 2.5, Seedance 2.0 and Kling to deliver cinematic, consistent results for real clients and pitches.

EXPERIENCE

Generative AI Artist — PRESENT

TheCreativGrid · Sri City, Andhra Pradesh

- Create AI-generated ad films and brand visuals for clients, including **Nippo BLDC Fan**, **Soch** and **Urban Rise**, a Bangalore real-estate developer.
- Build pitch films and concept visuals to help win new clients across **jewellery** and other sectors.
- Direct multi-shot AI video in Higgsfield and Magnific AI, with models like Seedance 2.5, Seedance 2.0 and Kling, using character sheets and location plates to keep characters and settings consistent from shot to shot.
- Edit, sound-design and colour-grade final deliverables in DaVinci Resolve for a polished, cinematic finish.

AI Video Artist & Color Correction Intern — 6 MONTHS

TheCreativGrid · Sri City, Andhra Pradesh

- Created AI-generated videos in Higgsfield and Magnific AI with models like Seedance 2.5, Seedance 2.0 and Kling for video generation and motion synthesis.
- Performed colour correction and grading in DaVinci Resolve for cinematic visual consistency.
- Applied visual storytelling and composition to digital campaigns and client projects.
- Developed prompt-based video direction workflows to improve AI output quality.
